UNITED STATES PATENT AND TRADEMARK OFFICE
BOARD OF PATENT APPEALS AND INTERFERENCES

Patent Interference No. 105,405 (RT)

SEARS ECOLOGICAL APPLICATIONS CO., LLC
(6,436,310 B1 and 6,440,325 B1),
Junior Party/Senior Party,¹

v.

MLI ASSOCIATES LLC
(10/266,975 and 10/690,894),
Senior Party/Junior Party.

JUDGMENT - Bd. R. 127 - Motions

Before GRON, TORCZON, and DELMENDO, *Administrative Patent Judges*.

TORCZON, *Administrative Patent Judge*.

The Board has held all of Sears' involved claims and all but two of MLI's involved claims to be unpatentable on various grounds. Those two claims, claims 43 and 44 of MLI's 10/266,975 application, correspond to count 1, for which MLI is the senior party. Since Sears no longer has claims to contest the priority of count 1 and MLI is the senior party for this count, the Director no longer needs an interference to determine whether he can issue claims 43 and 44 of the

¹ Junior as to count 1, but senior as to count 2.

10/266,975 application in a patent to MLI. *Cf. Case v. CPC Int'l, Inc.*, 730 F.2d 745, 750, 221 USPQ 196, 200 (Fed. Cir. 1984) (noting "that Case's patent is no impediment to granting CPC the claims of its application."). Rather than drag the proceeding out further, and thus entitle MLI to additional term adjustments, we exercise our discretion to end the proceeding at this point.
